## Admission of Nonresident Students

The Board reserves the right to accept/reject nonresident students based upon the availability of space, resources, personnel, appropriate programs and a positive review of education records.

The Board may consider situations such as: (1) students with unusual academic needs or abilities that can be met more readily by school services available in a nonresident school district; (2) students living in remote areas whose school transportation can be met more conveniently and efficiently by the nonresident school district; (3) students with unusual disciplinary or emotional problems who would have a greater ability to succeed in the environment of the nonresident school district; (4) students whose parents move from the district during a school year; and (5) students whose parents are employed within the nonresident district.

The district may enroll nonresident students as follows:

1. By written consent of the affected school boards. The student becomes a "resident pupil" of the attending district thereby allowing the attending district to receive State School Fund moneys;
2. By unilaterally admitting with tuition a nonresident student whereby neither district is eligible for State School Fund moneys.

Homeless students who are not under the supervision of a parent, may not be denied admission solely because the child does not have a fixed place of residence or is not under the supervision of a parent. The district may include a homeless student admitted to the district in their calculation for State School Fund moneys.
