Management Team

The management team is organized on the premise that the multiple responsibilities of the superintendent can be better served by establishing a means that will permit the ideas of all staff members to assist in resolving on district problems. Although the Board and the superintendent cannot absolve themselves from legally constituted responsibilities, the team provides for a two-way flow of information.

Members of the team will act in an advisory capacity to the superintendent. Their primary mission is to gather ideas, plan student services, express opinions, and interpret Board policy to other staff members in the light of detailed information they receive through discussions in meetings.

Members of the management team will include all principals and district office administrators.
