Enrollment Projections

Enrollment projections will be prepared at the direction of the superintendent and will be reviewed and updated annually.

Projections will take into consideration the following:

1. District registration figures;
2. Review of forthcoming changes in town planning and zoning;
3. Review of current and planned community land development and housing projects.

Whenever circumstances dictate, the Board may authorize outside studies made of population trends and district enrollment.

Each spring, administration will project elementary enrollment (separately for kindergarten and for grades 1 - 6) for the following fall and, in addition, will prepare the best possible assessments of enrollment two years in advance. This projection will be reported to the Board each spring.
