

Pendleton School District 16R

Code: **FECBA**
Adopted: 01/10/89
Readopted: 5/10/10
Orig. Code(s): FECBA

Energy-Conserving Construction

Because of the growing demands on conventional energy sources, the Board recognizes the importance and need for energy conservation in the construction of new district facilities.

Proposed construction and renovation projects which contain the most efficient energy-conserving plans within an acceptable budget will have high priority. Energy-conserving designs will be documented in the architectural evaluation and will comply with educational specifications and cost control checklist as determined by the Board.

A continuous study of energy problems and energy sources will be maintained for future planning.
