

Instructional Research

The district has the responsibility to engage in long-range educational planning in order to advise the Board regarding policy and effective decision making. The district is committed to the position that planning must be supported by appropriate research and evaluation.

The superintendent will establish formal procedures through which district personnel can submit educational research proposals. A major purpose of such research is to contribute to the quality of educational programming and advance the general welfare of students.

Proposals to involve the district in research originating from sources other than district personnel require prior approval from the superintendent. The basic premise for involving the district in research is the ability of the district to use results.
