

System of Reporting Student Progress

The Phoenix-Talent School District believes that student progress reporting has several purposes. First, it communicates student progress toward State and District standards to students, parents and other interested parties. Secondly, the reporting process is an integral part of the learning process.

The District will establish guidelines for determining each student's progress toward State and District standards. Progress will be reported on a regular basis and in a manner that is clear and accurate. For each grade level, the student progress report shall be standardized throughout the District. Substantial changes in the student progress reporting system shall require approval by the Board.
