

### **Personal Communication Devices**

Students may be allowed to use and possess personal communication devices on district property and at school-sponsored activities provided such devices are not used in any manner that may disrupt the learning environment, school-sponsored activities or violate Board policies, administrative regulations, school or classroom rules, state and federal law. As used in this policy, a “personal communication device” is a device that emits an audible signal, vibrates, displays a message or otherwise summons or delivers a communication to the possessor of the device.

The district will not be liable for personal communication devices brought to district property and school-sponsored activities.

The superintendent is directed to develop administrative regulations and/or approve school rules as necessary to ensure that student use of such devices is consistent with this policy. Administrative regulations may include grade- or age-level possession and/or use restrictions by students on district property and at school-sponsored activities, consequences for violations and such other provisions as the superintendent may deem necessary. The superintendent is responsible for ensuring that pertinent provisions of Board policies, administrative regulations and school rules governing personal communications devices are included in student/parent handbooks, reviewed annually and updated as necessary.

END OF POLICY
