## Public Gifts to the District

Gifts which may serve to enhance and extend the work of the schools may be received by the district. It will be the general policy of the district to direct those who desire to make contributions to consider equipment or services that are not likely to be acquired from public fund expenditures.

1. Tangible property contributed to the schools becomes the property of the district and is subject to the same controls and regulations that govern the use of other school-owned property.
2. Contributions of property or services that may involve major costs for installation or maintenance, or initial or continuing financial commitments from district funds, will be presented by the superintendent for Board consideration and approval.
3. Any groups planning to raise money for a gift to the school or the educational system will first consult with the superintendent regarding what gift should be made. The superintendent will develop guidelines for the acceptance of gifts. Such guidelines will include a concern for fairness and equity among schools.
4. Priority lists of needed and desirable equipment, supplies or services will be kept in each school.
5. Contributions of small items, such as books, do not require prior approval.

Books and other materials received as gifts will be subject to the same selection policies that govern the purchase of new materials.

6. All gifts will be subject to the provisions of Board policy.

In accepting gifts, the Board will be aware of the requirement that there should not be significant differences among the facilities of the various schools.
