

**Port Orford-Langlois  
School District 2CJ**

Code: **GBEBD/JHCCD**  
Adopted: 1/10/89  
Revised/Readopted: 6/8/04  
Orig. Code(s): GBEBD/JHCCD

**Staff/Students - Rumor Control - HIV, AIDS and HBV\*\***

The district shall use a two-pronged approach for rumor control related to HIV, AIDS and HBV<sup>1</sup> before a rumor begins and during an “active” rumor.

Before a rumor begins, the district shall annually notify staff, students, parents, media and the general public through such means as handbooks and newspaper articles of the confidentiality and individual rights requirements placed upon school districts. The requirements are outlined in Oregon Revised Statutes and Oregon Administrative Rules. Individual rights include the right a staff member or a student may have to continue working or attending school.

The district shall emphasize that unless a staff member or the parent (student) chooses to divulge an HIV, AIDS or HBV condition, the district will have no information except to reiterate the requirements in the law regarding confidentiality and individual rights. This will be stated routinely and in cases of an “active” rumor.

If the staff member or parent (student) wishes to divulge information and continues working or attending school, the district shall meet with the infected party or representative to develop a written procedure outlining minimally what information will be given, who will give the information, when and where the information will be given, how the information will be given and who will receive the information. The procedures will be signed for approval by the infected party or representative.

The district shall appoint a district spokesperson who shall be responsible for responding to staff, students, parents, media and the public in general.

END OF POLICY
