Grading System

Letter grades will be used in district grades 5-12. Students in grades K-4 will be evaluated based on state and, where applicable, local standards.

Grading will be based on an 18-week continuum. The grade will be based on many factors, such as: basal text assignments, both oral and written; class participation; special assignments; research; activities of various types and kinds; and special contributions.

Although it may be difficult to establish the quality of letter grades and the methods used in arriving at a grade, there must be a record which reveals how the teacher arrived at the grades given. At the beginning of the grading period students and parents will be informed regarding the basis of the grades and the methods to be used in determining them.
