Authorized Use of District Equipment and Materials

The district Board believes that although most district equipment is purchased by public funds, the equipment is primarily purchased to provide for and/or enhance students' educational programs. It is the superintendent's responsibility to protect and maintain this equipment. The superintendent is also responsible for establishing guidelines concerning equipment which may be used by the public and conditions under which it can be used.

In all cases of public use, equipment shall not be used for private financial gain.
