Student Achievement Program

Student achievement includes, but is not limited to, assessment results, student attendance, drop out rates, and diploma attainment.

The superintendent will ensure development and implementation of a comprehensive, collaborative planning process that engages the school community in the district's continuous student achievement improvement program efforts.

The district's program will be consistent with Oregon Department of Education requirements and will be reflected in individual school and district improvement plans.

In striving for continual improvement in student achievement, the Board will annually review the district improvement plan and individual school data and upon superintendent recommendation, the Board will allocate and realign resources as necessary.

The superintendent or designee will develop administrative regulations as needed to implement this policy.
