Public Engagement and Communications Program**

The Board believes that an effective public involvement and communication program is a necessary component of a school district's organization and operation. The district's public involvement and communications program will:

1. Provide meaningful opportunities to seek and use public input on issues affecting the operation of the district;
2. Encourage a better understanding of the goals, needs and accomplishments of the total educational program;
3. Be a two-way process between the Board and superintendent and the district's employees and the community;
4. Include the use of a variety of involvement opportunities such as meetings, letters, the district web page, committees, publications and personal contacts;
5. Provide the information sharing and discussion channels necessary for resolving differences and eliminating misunderstandings;
6. Encourage informal as well as formal methods of communication.
