

## **Student Withdrawal from School**

Students identified as potential or immediate candidates for withdrawal will be encouraged to attend school for a three-day assessment period prior to withdrawal. During this three-day period following procedure is to be implemented:

1. Student, counselor, parents and principal will meet to discuss reasons for leaving school and student's future plans;
2. The regular school program will be modified to suit student's needs as appropriate. Students will be made aware of alternative programs of instruction;
3. If a student withdraws, there shall be an effort to keep the amount of discomfort minimal for the student to re-enroll at a later date;
4. Student, parents, counselor and principal will review all pertinent information and give their recommendations;
5. If possible, students who withdraw shall be contacted after a 10-day period to re-evaluate their decision;
6. Students granted an exemption from compulsory attendance shall have that exception reviewed on a semi-annual basis.
