Library Materials Selection and Adoption

Legal authority for the selection of materials in the school library rests with the Board. Responsibility for the actual selection of materials shall be delegated to professionally trained personnel who know the course of study, the methods of teaching and individual differences of the students in the schools for which the materials are provided; such selection to be in accordance with Board policy.

Both printed and non-printed materials are included and come under these guidelines as set forth for the library policy.

There shall be cooperation between the libraries in the district as far as short term loans of materials are concerned so as to prevent the waste of budgeted money and the unnecessary duplication of materials used infrequently.

The superintendent will develop procedures for the selection of library materials, including the elimination of materials deemed no longer useful.
