High School Classes/ for Pre-Grade 9 Students**

The district encourages students to perform at the highest level possible in their course work. Recognizing that some upper level elementary school age students are able to master existing high school curriculum, it is the policy of the district to allow eighth grade students, who are qualified, to take designated high school classes/courses. High school credit may be granted, if students taking pregrade nine courses are required to meet performance criteria that are equivalent to the performance criteria for students taking the same high school classes.

Middle school students who earn a B or an A in Algebra I or a Second Language in their middle school coursework, will be granted high school credit provided the standards are the same as those taking the classes at the high school. Students and their parents will be asked to sign a release of grades to the high school for transcript purposes (see the accompanying administrative regulation IKAC-AR).

The district will allow the granting of such credit to be used to reduce the units of credit to be completed of a student in grades 9 through 12 for high school graduation.

Once a middle school student receives high school credit they may not take the course again at the high school to improve their GPA.

The Oregon University System, NCAA eligibility requirement, and other higher institutions of learning may/may not accept high school credits earned at the middle school level.
