

**Short-Form Investment  
Bond Proceeds Only**

**Policy Statement**

Oregon Revised Statutes Section 294.135 generally requires a local government to have its investment policy reviewed by the Oregon Short Term Fund Board ("OSTFB") before the local government adopts the policy and makes investments that are longer than 18 months from their purchase date. The Silver Falls School District (Entity) may wish to invest its bond proceeds longer than 18 months to match investment maturity dates to the expected schedule for payment of construction costs. The OSTFB has made this short-form policy available to local governments that desire to invest only bond proceeds for more than 18 months, and that desire expedited review by the OSTFB before the investment policy is adopted. This short-form policy contains very substantial limitations and does not provide the Entity with the controls or flexibility that a comprehensive investment policy should provide.

The OSTFB strongly believes that all local governments with substantial investable funds should adopt a comprehensive investment policy. In consideration of the OSTFB providing expedited review of this short-form policy, the Entity agrees that it shall, within 12 months after this policy is adopted, either: submit a comprehensive investment policy to the OSTFB; or, request a waiver from the OSTFB. If the Entity neither submits a comprehensive investment policy nor requests a waiver within 12 months after this policy is adopted, this policy shall terminate on 12 months after the date of its adoption.

**Scope**

This investment policy applies only to the investment of bond proceeds. All other funds of the Entity that are subject to ORS 294.135 will be invested under 18 months.

**Objective**

The primary objectives, in order of priority, for the Entity's investment under this policy are as follows:

1. **Legality:** The investments will be in compliance with all statutes governing the investment of public funds in the State of Oregon.
2. **Liquidity:** The investments will be made in a manner that generates sufficient cash flow to meet the expected project cost schedule. A liquidity component of at least 10% of the current bond proceed balance will be maintained in the LGIP fund, assuming that this amount is within ORS 294-810 restrictions.
3. **Safety:** Investments are limited to U.S. Treasury and non-callable fixed rate Government Sponsored Enterprise and Agency securities described in Section 8.0, below.

4. Yield: The yield will be dependent on the timing of the investments.

### **Delegation of Authority**

The Investment Officer is responsible for all investment decisions.

### **Ethics and Conflicts of Interest**

Officers and employees involved in the investment process shall refrain from personal business activity that may conflict with the proper execution of the investment program, or may impair their ability to make impartial investment decisions.

### **Authorized Financial Dealers and Institutions**

The Investment Officer will maintain a list of dealers with whom they are authorized to do business. These may include "primary" dealers or regional dealers that qualify under SEC Rule 15C3-1 (uniform net capital rule). If an investment advisor is hired, the advisor may execute directly with the approved dealers.

### **Investment Advisory Services**

The Entity may seek outside investment advisory services to assist with the investment of bond proceeds. The services will be non-discretionary and the advisor shall be required to act with fiduciary responsibility.

### **Authorized and Suitable Investments**

Only the following investments may be purchased under this policy:

1. Obligations of the U.S. government;

2. Agency (GSE's) Up to 33 percent per issuer

The Entity shall comply with all required legal provisions and Generally Accepted Accounting Principals (GAAP) relating to investment accounting.
