

Emergency Procedures and Disaster Plans

The district will provide for the safety of all students, employees and members of the public at all times when under the jurisdiction of the school district.

The superintendent will develop and maintain a plan specifying procedures to be used in such emergencies as disorderly conduct, unlawful assembly, disturbances at school activities, nature disasters, fire, illness or injury of a student or staff member, and use of force on school property. The superintendent will consult with community and county agencies while developing this plan.

The district's Emergency Procedures Plan will meet the standards of the State Board of Education. The district emergency plan will consist of a written set of procedures designed to guide life protective action in times of crisis. All district employees should have a thorough knowledge of this written plan. Planning, follow-up discussions and emergency drills will be used at the building level to implement this plan.

Copies of the Emergency Procedures Plan will be available in every school office and other strategic locations throughout the district. Parents will be informed of the district's plan for the care of students during an emergency situation. The Board may use Oregon Revised Statute (ORS) 192.660(2)(k) to conduct an executive session to consider matters related to school safety or a plan that responds to safety threats made toward a school in the district. All district employees shall familiarize themselves with all district and building emergency procedures and shall actively participate in all emergency drills. Those employees acting in a supervisory capacity, including teachers, shall provide appropriate emergency instruction for all persons in their care.

END OF POLICY
