

## **Drug, Alcohol and Tobacco Prevention, Health Education\*\***

Students have a right to attend school in an environment conducive to learning. Since student drug, alcohol and tobacco use is illegal and harmful and interferes with both effective learning and the healthy development of students, the school has a fundamental legal and ethical obligation to prevent unlawful drug, alcohol and tobacco use and to maintain a drug-free educational environment.

After consulting with parents, teachers, school administrators, local community agencies and persons from the drug, alcohol or health service community who are knowledgeable of the latest research information, the Board will adopt a written plan for a drug, alcohol and tobacco prevention and intervention program.

### **Drug Prevention Program**

The district's drug, alcohol and tobacco curriculum will be age-appropriate, reviewed annually and updated as necessary to reflect current research and Oregon's Health Education Academic Content Standards.

Drug, alcohol and tobacco prevention instruction will be integrated in the district's health education courses for grades K-12. Students not enrolled in health education shall receive such instruction through other designated courses. At least annually, all high school students, grades 9-12, shall receive instruction about drug and alcohol prevention. Instruction shall minimally meet the requirements set forth in Oregon Administrative Rules.

The district will include information regarding the district's intervention and referral procedures, including those for drug-related medical emergencies, in student/parent and staff handbooks.

"Intervention" is defined as the identification and referral of students whose behavior is interfering with their potential success socially, emotionally, physiologically, and/or legally as a result of prohibited drug, alcohol and/or tobacco use.

Any staff member who has reason to suspect a student is in possession of, or under the influence of unlawful drugs, alcohol, other intoxicants or tobacco on district property, on a school bus or while participating in any district-sponsored activity, whether on district property or at sites off district property, will escort the student to the office or designated area and will report the information to the principal or his/her designated representative.

Students possessing, using and/or selling unlawful drugs, including drug paraphernalia, alcohol and tobacco on district property, in district vehicles, at district-sponsored activities on or off district grounds shall be subject to discipline up to and including expulsion. When considering disciplinary action for a child with disabilities, the district must follow the requirements of Board policy JGDA/JGEA – Discipline of Students with Disabilities including those involving functional behavioral assessment, change of placement, manifestation determination and an interim alternative educational setting. Students may also be referred to law enforcement officials.
