Home Teaching Program

The objective of the Board is to provide an appropriate public education for every eligible student, including students who are physically disabled to the extent that the disability prevents the student from participating in a regular classroom program.

A student who is of school age and whose disability prevents him/her from attending for ten or more consecutive school days may be eligible for the home teaching program.

Home instruction may also be provided to any student whose educational needs, as determined by staff, are most appropriately and effectively met by such a program.

The superintendent is authorized to develop administrative regulations which will enable these services to be provided.
