

## Selection of Instructional Materials

The district shall provide instructional materials that will enrich and support the curriculum, taking into consideration the varied interests, abilities and maturity levels of the students served.

To educate each student to the fullest requires a wide variety of instructional materials to fill curriculum and personal needs. These instructional materials are both printed materials, which include library books, textbooks, periodicals, pamphlets and newspapers; audiovisual materials, which include films, filmstrips, slides, recordings, transcriptions, tapes, instructional equipment; computer software; and other educational media, such as Internet access.

The material selected may present opposing points of view to develop critical reading and thinking skills.

Materials shall be representative of various religious, ethnic and cultural groups.

The material is meant to stimulate growth in factual knowledge, literary appreciation, aesthetic values and ethical standards.

Instructional materials will be provided in sufficient quantities and varieties to implement the district's instructional program. Textbooks and supplementary materials selected will be from the Oregon State Department of Education approved list, unless an independent adoption has been authorized by the Board and granted by the Oregon Department of Education.

Textbooks and other instructional materials adopted by the Board shall be selected by the appropriate professional personnel. The input of staff, parents and citizens through the site councils will be encouraged. Final decisions on purchases will rest with the superintendent or designee, subject to official adoption by the Board in the case of textbooks and other instructional materials.

### Selection of Library Books and Audiovisual Aids

The district recognizes the rights inherent in the First Amendment of the Constitution of the United States. The district will provide information and resources in classrooms and library media centers in accordance with constitutional protection.

Materials selection is the responsibility of licensed media staff with approval resting with the building principal.

Materials ordered by staff shall be reviewed by the media staff. Questionable selections may be discussed with the appropriate personnel or a committee of media specialists. A file recording the basis for decisions should be kept for titles likely to be questioned or apt to be considered controversial. This file may contain newspaper clippings or other news items concerning censorship of materials for reference purposes.

The district supports a process for the systematic review of resources through established procedures.

Any resident or employee may challenge the appropriateness of the district's instructional materials. The district will provide a procedure to process such challenges.
