

## Student Insurance Coverage

### Athletics

Students participating in interscholastic athletics must be protected by accident insurance for medical and hospital costs.

Student-athletes may provide their own insurance or participate in the group plan provided by the school.

Should a student-athlete and his/her family elect to provide their own insurance:

1. The parent must furnish to the district an affidavit indicating that the student-athlete is covered while participating in interscholastic athletics;
2. The parents of the student-athlete release the district in writing from any financial responsibility resulting from injuries while participating in interscholastic athletics;
3. No district moneys will be used to offset premiums for health and accident insurance other than that policy sponsored by the district;
4. The district will not function as an agent for any other policy than the one sponsored by the district.

### Student Accident Insurance

Arrangements are made each year for student accident insurance coverage. The fee is paid by the student or parent. Information is provided to students and their parents at the time of registration.

END OF POLICY
