Policy Development

The district will be governed by a set of written policies. In order to operate the district in an effective, efficient and consistent manner, written Board policies will be developed and periodically revised as needed. Policy will be in the form of broad principles that define the desire and intent of the Board, and will be based on the needs of the district. Application of such policies to individual problems and tasks is an administrative function to be performed by the superintendent. The policies will be consistent with Oregon statutes, regulations of the State Board of Education and all federal laws and regulations.

Policy Development

The basic responsibility for initiating, reviewing, and recommending new policies or policy modifications will rest with the superintendent. New policies or changes in existing policy may be proposed by any Board member, group or organization, staff member, student or resident of the district to the superintendent for the Board to consider. The superintendent, in developing these policies, may be guided by the recommendations of the staff and may seek community input during the preparation and subsequent review of policy statements. Advice from legal counsel may be appropriate. The superintendent will furnish necessary background information to the Board.

The final authority and responsibility for Board policy lies with the Board.
