

Student Transportation Services

School transportation services will be provided for students to and from school and for transporting students to and from curricular and extracurricular activities sponsored by the district transporting from one school or facility to another school-sponsored field trips that are extensions of classroom learning experiences. Transportation will be provided for homeless students to and from the student's school of origin¹ as required by the No Child Left Behind Act of 2001 (NCLBA). These services shall be provided throughout the regularly scheduled year and during the regular school day as determined by the Board.

Miles from school will be determined by the superintendent in accordance with OAR 581-023-0040 (1)(c).

The district may also provide transportation using federal funds² or through cooperative agreements with local victims assistance units for a student to attend a safe district school³ out of the student's attendance area for any student who is a victim of a violent criminal offense occurring in or on the grounds of the school the student attends or the student attends a school identified as persistently dangerous.

Transportation provided will, to the extent possible, be to a school that is making adequate yearly progress and that has not been identified as in need of improvement, corrective action or restructuring. If there are no other schools within the district a student may transfer to, the district may establish a cooperative agreement with other districts in the area for a transfer. Transportation for students who transfer for such purposes will be provided in accordance with the agreement.

A seat that fully supports each student will be provided at all times. A child four or five years of age or who weighs between 40 and 60 pounds, regardless of age, shall be properly secured with a child safety system that meets the minimum standards and specification requirements of law. A district vehicle over 10,000 pounds or equipped with a lap belt only is exempt from child safety system requirements. Seating capacity will be in compliance with vehicle design and student grade levels.

School buses carrying students will be considered extensions of the school experience. All students using school transportation will abide by the code of conduct posted in each school bus or school activity vehicle. Violations of such code, as well as other conduct which is improper or which jeopardizes the safety of self or others, will be reported by the school bus driver to the supervisor. The transportation supervisor will, as soon as possible, inform the appropriate building principal of such occurrence.

¹"School of origin" means the school that the student attended when permanently housed or the school in which the student was last enrolled.

²Federal funds means funds available through Title IV, Part A, and Title V, Part A.

³If there is not another school in the district to which students can transfer, districts are encouraged, but not required to, explore other appropriate options, i.e., an agreement with a neighboring district.

Violators may be denied use of transportation for a period of time as deemed proper by the building principal and/or transportation supervisor.

The building principal or designee shall ensure transportation officials and drivers receive notification of students having special medical or behavioral protocols identified in student records.

Information and/or training, including confidentiality requirements, will be provided to drivers, as appropriate.

The school bus vehicle driver will be responsible for the school bus [vehicle] at all times from departure until return. The driver will not participate in any activities that might impair his/her driving abilities.

The district will comply with all state and federal laws and regulations pertaining to school bus transportation.
