School Bus Scheduling and Routing

Prior to each school year, the superintendent or designee and a representative of the bus services contractor will review all bus routes by personally traveling each route; evaluating safety of roads and each stop area. Bus stops and routes will be based upon this evaluation, Board policy and applicable state and federal laws and rules.

Once this is accomplished and all roads and stops are determined safe, the superintendent will prepare a map of bus routes, bus stops and number of students at each stop. The final transportation plan shall be presented to the Board prior to each school year.
