

District Library/Media Centers

The Board recognizes the need for the district to provide print and nonprint materials in a collection with sufficient breadth to support the schools' educational programs and the students' interests as well as sufficient depth to meet the needs of wide-ranging abilities.

The library/media center will make materials available to users through the organization of such materials according to recognized library/media standards. The instruction in the use of these materials, the provision and maintenance of necessary equipment and production of special materials are also recognized as necessary activities.

All scheduled school year hours will be subject to "in loco parentis" in which the school library will only provide access to resources that are appropriate for the ages the school serves.

Library/Media services shall be reviewed annually. The review shall include curriculum, personnel and inventory.
