The district may make modifications to the assessment for students who seek a modified diploma when the following conditions are met:

1. For a student on an individualized education program (IEP), any modifications to work samples must be consistent with the requirements established in the IEP. Modifications are changes to the achievement level, construct, or measured outcome of an assessment. This means that IEP or school teams responsible for approving modifications for a student's assessment may adjust the administration of the assessment and/or the assessment's achievement standard.

2. For a student not on an IEP, any modifications to work samples must have been provided to the student during his/her instruction in the content area to be assessed, and in the year in which the student is being assessed, and modifications must be approved by the school team that is responsible for monitoring the student's progress toward the modified diploma.

Students not on an IEP or a Section 504 Plan may not receive a modified assessment.

A student's school team shall decide that a student should work toward a modified diploma no earlier than the end of grade six and no later than two years before the student's anticipated exit from high school. A student's school team may decide to revise a modified diploma decision.

A student's school team may decide that a student who was not previously working towards a modified diploma should work towards one when the student is less than two years from anticipated exit from high school if the documented history has changed.

Beginning in grade five when a student is taking an alternate assessment, the district shall annually provide to the parents or guardians of the student, information about the availability and requirements of a modified diploma.
