

Interdistrict Transfer of Resident Students

The Board recognizes there may be circumstances that arise under the No Child Left Behind Act of 2001, when it is necessary to release a student who resides within the boundaries of the district to attend school in another district that agrees to accept the student. A student who resides within the district may make a request to attend school in another district that agrees to accept the student. Interdistrict transfers of resident students for other purposes may be permitted, subject to consideration based on criteria established by the district and outlined below.

When as determined by the Board the proposed change of placement has a clear and compelling educational benefit for the student over the resident district placement a transfer may be approved. The request and explanation of the clear and compelling education benefit must be submitted in writing to the superintendent. Requests will be considered by the Board.

When the district approves the release of a resident student under the above criteria, the student and his/her parent(s)/guardian(s) will be solely responsible for transportation.

The superintendent will develop administrative regulations, as needed, to implement this policy.
