

## Graduation Requirements

The Board will establish graduation requirements for the awarding of a regular high school diploma, modified diploma, extended diploma and alternative certificate which meet or exceed state requirements. A student may satisfy graduation requirements in less than four years. The district will award a diploma to a student fulfilling graduation requirements in less than four years upon the student's request and, if required, if the student's parents or guardian consents.

The district will ensure that students have access to the appropriate resources to achieve a diploma, modified diploma, extended diploma or alternative certificate at each high school. The district will provide age appropriate and developmentally appropriate literacy instruction to all students until graduation.

### Essential Skills

The district will allow English Language Learner (ELL) students to demonstrate proficiency in the Essential Skills of Apply Mathematics, in a variety of settings, in the student's language of origin for those students who by the end of their 11th grade year are:

1. On track to meet all other graduation requirements; and
2. Unable to demonstrate proficiency in the Essential Skills in English

The district will allow ELL students to demonstrate proficiency in Essential Skills other than Apply Mathematics, in a variety of settings, in the student's language of origin for those students who by the end of their 11th grade year:

1. Are on track to meet all other graduation requirements;
2. Are unable to demonstrate proficiency in the Essential Skills in English
3. Have been enrolled in a U.S. school for five years or less; and
4. Receives at least a level 3 (Intermediate) on the English Language Proficiency Assessment (ELPA).

The district will develop procedures to provide assessment options as described in the Test Administration Manual, in the ELL student's language of origin for those ELL students who meet the criteria above, and will develop procedures to ensure that locally scored assessment options administered in an ELL student's language of origin are scored by a qualified rater.

The district may not deny a student, who has the documented history of an inability to maintain grade level achievement due to significant learning and instructional barriers, or of a medical condition that creates a barrier to achievements, the opportunity to pursue a diploma with more stringent requirements than a modified diploma or an extended diploma for the sole reason the student has the documented history.

The district may award a modified diploma or extended diploma to a student only upon the written consent of the student's parent or guardian. The district shall receive the written consent during the school year in which the modified diploma or extended diploma is awarded. This requirement does not apply to a student who is emancipated or has reached the age of 18 at the time the modified diploma or extended diploma is awarded.

Beginning in grade five, the district will annually provide information of the availability of a modified diploma, an extended diploma, and an alternative certificate and the requirement for the diploma and certificate to the parents or guardians of a student taking an alternate assessment.

A student who receives a modified diploma, extended diploma or alternative certificate will have the option of participating in a high school graduation ceremony with the student's class.

Alternative certificates will be awarded to a student who does not satisfy the requirements for a diploma or modified diploma if the student meets minimum credit requirements established by the district.

Alternative certificates will be awarded based on individual student's needs and achievement. A student who receives a modified diploma or alternative certificate will have the option of participating in a high school graduation ceremony with the student's class.

The district will award to students with disabilities a document certifying successful completion of program requirements. No document issued to students with disabilities educated in full or in part in a special education program shall indicate that the document is issued by such a program. When a student who has an individualized education program ("IEP") completes high school, the district will give the student an individualized summary of performance.

Eligible students with disabilities are entitled to a Free Appropriate Public Education ("FAPE") until the age of 21, even if they have earned a modified diploma, certificate of attendance or completion or a General Education Development document. The continuance of services for students with disabilities for a modified diploma, extended diploma or alternative certificate is contingent on the IEP team determining the student's continued eligibility and special education services are needed.

Students and their parents will be notified of graduation and diploma requirements.

The district will review graduation requirements biennially in conjunction with the secondary school improvement plan. Graduation requirements may be revised to address student performance.

The district will issue a high school diploma, upon request, to a person who served in the Armed Forces<sup>1</sup>, as specified in Oregon law, if the person was discharged or released under honorable conditions and has received either a General Educational Development, a post-secondary degree or has received a minimum score on the Armed Services Vocational Aptitude Battery.
