

## **Personal Electronic Devices and Social Media\*\***

Student possession or use of personal electronic devices on public charter school property, in public charter school facilities during the school day and while the student is in attendance at public charter school-sponsored activities may be permitted subject to the limitations set forth in this policy and consistent with any additional school rules as may be established by the principal and approved by the administrator.

A “personal electronic device” is a device that is capable of electronically communicating, sending, receiving, storing, recording, reproducing and/or displaying information and data.

“Independent communication” means communication that does not require assistance or interpretation by an individual who is not part of the communication but that may require the use or assistance of an electronic device.

Personal electronic devices shall be turned off during instructional or class time, during passing times between classes or at any other time where such use of the device would cause a disruption of school activities. Devices which have the capability to take photographs or record video or audio shall not be used for such purposes while on public charter school property or while a student is engaged in public charter school-sponsored activities, unless as expressly authorized in advance by the principal or designee. Computers, tablets, iPads or similar devices brought to school will be restricted to academic activities and independent communications.

If the public charter school implements a curriculum that uses technology, students may be allowed to use their own personal electronic devices to access the curriculum. Students who are allowed to use their own devices to access the curriculum will be granted access to any application or electronic materials when they are available to students who do not use their own devices, or provided free of charge to students who do not use their own devices, for curriculum.

A process for responding to a student’s request to use a personal electronic device, including an appeal process if the request is denied, will be provided.

The public charter school will not be liable for personal electronic devices brought to public charter school property and public charter school-sponsored activities.

Students may not access social media websites using public charter school equipment, while on public charter school property or at public charter school-sponsored activities unless the access is approved by a public charter school representative. The public charter school will not be liable for information or comments posted by students on social media websites.

Exceptions to the prohibitions set forth in this policy may be made for health, safety or emergency reasons with prior principal or designee approval or when use is provided for in a student's individualized education program (IEP).

Students are subject to disciplinary action up to and including expulsion for using a personal electronic device in any manner that is academically dishonest, illegal or violates the terms of this policy<sup>1</sup>. A referral to law enforcement officials may also be made. Personal electronic devices brought to public charter school property or used in violation of this policy are subject to confiscation and will be released to the student's parent or property owner, as appropriate.

The administrator shall ensure that the Board's policy and any subsequent school rules developed by building administrators are reviewed and approved in advance to ensure consistency with this policy and that pertinent provisions of policy and school rules are communicated to staff, students and parents through building handbooks and other means.

END OF POLICY
