Administrative Regulations/Handbooks

Administrative regulations and/or procedures are detailed directions for implementing policies and governing the operating of the schools. The Board directs the superintendent to formulate such administrative regulations as required or appropriate for the implementation of policies adopted by the Board and necessary for the consistent operation of the district. The Board authorizes the superintendent or his/her designee to develop and distribute handbooks and/or directives to notify the staff, students and public about district policies, regulations and procedures. The superintendent may seek advice from staff, students, community members and/or professional consultants as he/she deems appropriate in developing regulations, procedures or handbooks.

When approved by the superintendent, administrative regulations and/or procedures will be distributed. The Board may review any administrative regulations and/or procedures and may revise them by majority vote if, in the Board's judgment, such regulations or procedures are not consistent with adopted policies.

The Board will adopt regulations when state or federal laws require the Board to do so. It may also adopt regulations when the superintendent recommends Board action.

Board members will receive copies of all new or revised district regulations. Students and staff will be advised of all regulations affecting them.
