Instructional Materials Selection, Adoption and Purchase

The Board recognizes its legal responsibility to choose the textbooks and other instructional materials to be used in the schools and it declares its intention to select and maintain such materials in accordance with the law.

Instructional materials and textbooks will be selected upon recommendation of professional staff and will be approved by the Board. In determining selections, the opinions of parents and other members of the community shall be taken into consideration.

The district will establish a process and timeline for regularly determining and considering whether the textbooks and other instructional materials are available through online resources that enable students with print disabilities to receive textbooks and instructional materials free of charge.

The Board directs the superintendent to distribute curriculum materials and instructional supplies to the schools in such a way that equivalence is ensured among schools.
