Orig. Code(s): 8008

Assignment of Students to Schools/Indistrict Transfers**

Students will attend the school in the attendance area in which they reside unless they have an approved indistrict transfer in effect.

When a student moves into another attendance area, he/she may remain at the former school until the end of the current report card period. At the end of that period he/she must transfer to the school which serves the attendance area of his/her new residence.

In special cases permission may be granted to allow the student to remain in his/her former school until the end of the semester. Transportation of students attending a school other than the school in which attendance area they reside is the responsibility of a parent or guardian.

A student who becomes a victim of a violent criminal offense, as determined by state law, while in or on the grounds of a school the student attends, or any student attending a district school that is identified by the Oregon Department of Education (ODE) as persistently dangerous, may transfer to a safe district school.

Attendance areas will be subject to annual adjustment to balance student enrollment. In special cases, permission may be granted to allow a student to attend a school outside of the attendance area in which the student resides if space in the school out of the attendance area is available as determined by the superintendent. In all such cases, parents must provide transportation if the normal school district transportation would be interrupted to accommodate the student.
