Student Organizations

Student organizations will be encouraged when they meet the criteria of contributing to learning. Such organizations will operate within the framework of the law, Board policy, administrative regulations and the parameters of the learning program. When such organizations contribute to the learning environment, their establishment and operation may be facilitated by district staff and through the use of district resources.

The building principal will develop general guidelines for student organizations. Among other provisions, such guidelines will require the assignment of at least one faculty advisor to each student organization.

Voluntary student-organized clubs not directly related to the instructional program may meet on school premises during non-instructional time pursuant to the provisions of the equal access act and to the terms of this policy. All such clubs must have the approval of the building administrator.
