

Student Searches**

Searches

The Board seeks to assure a learning environment which protects the health, safety and welfare of students and staff. To assist the Board in attaining these goals, district officials may search a student's person and property, including property assigned by the district for the student's use. District officials may seize any item which is evidence of a violation of law, district policy or rules, or of which the possession or use is prohibited by law, policy or rules.

The superintendent will develop rules for implementing this policy in a manner which both protects students' rights and provides a safe learning environment without unreasonable interference following these basic procedures:

1. A search may be conducted when there is individualized reasonable suspicion to believe that evidence of a violation of law, Board policy, administrative regulation or school rule is present in a particular place;
2. The search shall be "reasonable in scope." That is, the measures used are reasonable related to the objectives of the search and not excessively intrusive in light of the age, sex, maturity of the student and nature of the infraction.
3. Evidence of a prohibited item may be seized by district officials;
4. A search of district property assigned to students, including but not limited to lockers or desks, may occur from time to time. Students will be notified that a search of district property has occurred and will be notified of any evidence or prohibited item seized;
5. Annually students assigned district property for their use will be informed of conditions for the use of such property and of the intent of the district to conduct searches from time to time.

Questioning

When law enforcement officials find it necessary to question students during the school day or during periods of extracurricular activities, an administrator will normally be present. An effort will normally be made to inform the parent, guardian or person in a parental relationship. However, in suspected child abuse cases, Services to Children and Families and law enforcement officials may exclude district personnel from investigation procedures and may prohibit informing the parents.

Custody

When law enforcement officials find it necessary to take a student into custody, the administrator will request that the officials act in a manner which causes the least possible disruption to the learning environment.
