**Management Team**

The management team is organized on the premise that the multiple responsibilities of the superintendent can be better served by establishing a means which permits the ideas of all staff members to have a bearing on school decisions. The Board recognizes that the team and its members make up the primary supervisory force for assuring effective and efficient operation of the educational programs of the district.

The team will provide input on matters which have an impact upon district-wide operation on an advisory basis. This advice will be considered by the superintendent in his/her decision-making relative to district-wide matters.

The Board recognizes that although the team concept in no way changes the authority of the superintendent to structure the total management organization of the district within the parameters of Board policy, the concept does provide for formal advisory input by the team.
