Computer Technology

The proliferation of computers throughout American society requires that students receive instruction in their use. To ensure that maximum benefits are realized from the investment required for the equipment, the following policies will apply:

1. The primary purpose of computers will be for instruction. Included in instructional uses will be CAI (Computer Assisted Instruction), CMI (Computer Managed Instruction), computer literacy and computer programming;
2. Computer users will recognize and adhere to existing copyright laws;
3. Computer hardware and software will not be removed from school premises without permission;
4. All hardware purchased must be durable, use a wide range of software, be compatible with other school hardware and be easy to maintain;
5. All software must be previewed by a staff member before purchase;
6. A technology committee appointed by the superintendent will review and update a priority list for purchase of computers and a plan for computer acquisition and use.

END OF POLICY
