Safety Program

Safe buildings, grounds and equipment will be maintained in order to prevent accidents or injury to students, employees and others from fire, natural disasters, mechanical and electrical malfunction and other hazards.

Buildings will be planned, constructed, equipped and maintained in accordance with appropriate local, state and federal safety regulations.

Buildings will be provided with alarm systems, fire extinguishers and other safety devices required by state and federal laws and regulations.

The President or designee will develop and implement a safety program which will include, but not be limited to, compliance with and enforcement of all state and federal laws, rules and regulations. Human Resources will complete applicable federal and state reports as necessary (e.g. OSHA Form 300).
