

## **Immunization Requirements for Community College Students**

In accordance with the Oregon Public Health Division, Oregon Revised Statute 433.283 and Oregon Administrative Rule 333-050-0140.

Treasure Valley Community College requires that students involved in clinical experiences in allied health, practicum experiences in education or child care, and membership on intercollegiate sports teams have two doses of measles vaccine prior to each student's participation in these activities. The requirement applies only to those students born on or after January 1, 1957.

One of following may be accepted as proof of two doses of measles vaccine:

1. Written documentation of the month and year of each dose, on or after the first birthday, with a minimum of 28 days between the first dose and second dose; or
2. If no date is available for the first dose, the month and year of the second dose on or after December 1989, is acceptable if the student was born prior to January 1, 1984.

Documentation must be in one of the following formats:

1. A record signed by the student, health care practitioner, or an authorized representative of the local health department;
2. A record printout from the statewide immunization information system, Oregon Immunization ALERT; or
3. A record printout from a computer system approved by the Public Health Division as specified in OAR 333-050-0060(5).

Students may be exempted from the measles vaccine requirement if:

1. A medical reason exists for not receiving the vaccine (physician documentation required);
2. There is a history of disease (documentation of adequate measles [rubeola] titer or physician documented diagnosis required);
3. Dates of measles vaccine are not available (must provide documentation of adequate measles [rubeola] titer); or
4. The student chooses not to receive the vaccine because of religious beliefs.

## **Registration Restrictions**

Registration to attend classes will not be allowed for students until they provide documentation of completed immunization requirements or an exemption.

Students can discuss the immunization requirements with the personnel at (decided by each site). If immunizations are not up to date, the students can get the vaccines at the local health department or a physician's office.
