Instructional Technology

The instructional technology plan for the district envisions that from their instructional sites, students and teachers will be able to:

1. Access information and manipulate it in meaningful ways that result in learning;
2. Generate and create information related to district instructional and curriculum goals;
3. Use technology as a tool for productive learning (i.e., tutorials, electronically-assisted instruction, remediation, long distance learning, ITV, etc.).

The district recognizes that technology will be changing; therefore, a continual review of the district's technological applications, fiscal and human resources, staff development needs, equipment and supplies will be conducted.
