Talented and Gifted Program

The district is committed to an educational program which recognizes, identifies and serves the unique needs of our academically talented and intellectually gifted students.

To carry out this policy, the Board directs the district staff to develop procedures for identifying academically talented and intellectually gifted students from grades K-12. The Board further directs the superintendent to develop a written plan which identifies programs or services needed to address the assessed levels and accelerated rates of learning of those identified students. All required written course statements shall identify the academic instructional programs and services which will be provided to accommodate accelerated student abilities and learning rates.

The superintendent is also directed to provide educational opportunities designed to prepare teachers for meeting the needs of the district's identified talented and gifted students.
