Security of Buildings and Grounds/Access to Buildings

The Board encourages close cooperation with local law enforcement and fire authorities and insurance company personnel in planning and carrying out proper security measures to preserve and protect the district's investment in its physical plant.

The superintendent will control access to district buildings as is appropriate and necessary to protect property, students and personnel.

Principals will control access to school buildings and will provide safeguards against unauthorized access to these buildings. Each principal, with approval of the superintendent, will develop regulations designed to control the use of building keys and to ensure that buildings are adequately closed and locked when no authorized personnel are present. Staff or students who fail to obey such regulations may be disciplined, suspended or dismissed.
