

Vernonia School District 47J

Code: **EEAB**
Adopted: 2/10/00
Orig. Code(s): EEAB

School Bus Scheduling and Routing

Actual bus stops and routes will be determined by the transportation contractor and the superintendent/designee and will be based upon efficiency, safety, Board policy, fiscal impact and applicable state and federal laws and regulations.

The determination of safe roads for school bus travel will be made by the contractor. School bus service will be limited to paved (black-topped or concrete), oiled or existing gravel roads unless otherwise directed by the contractor.

The superintendent in conjunction with the contractor will:

1. Annually review and assess school bus routes, stops and loading zones for safety, changing student population, fiscal impact and supervision of students;
2. Advise parents of any changes in transportation policy affecting their student(s) as early as possible and be responsive to parent calls for assistance in seeking alternatives to busing; and
3. Work with cities, the county and other appropriate governmental agencies on a continuing basis to inform them of transportation issues.

END OF POLICY
