

Mother Friendly Workplace

The district recognizes that a normal and important role for mothers is to have the option and ability to provide for their child by breast-feeding or expressing milk in the workplace. The Board directs the superintendent or designee to take measures and develop regulations to ensure that all district employees shall be provided with an adequate location for the expression of milk or breast-feeding.

The superintendent or designee shall see that the district makes a reasonable effort to provide a room or other location in close proximity to the employees work areas, other than a restroom, where an employee can breast-feed her child or express milk in privacy.

A reasonable effort will be made to provide a flexible work schedule in consideration of the requirements of the staff member's responsibility.

The district shall provide the employee a 30-minute rest period to breast-feed or to express milk during each 4-hour work period, or the major part of a 4-hour work period, to be taken by the employee approximately in the middle of the work period.¹ If feasible, the employee will take the rest period at the same time as the rest periods or meal periods provided by the district.

This policy and a list of designated locations will be published in the employee handbook. A list of designated locations must be readily available upon request in the central office of each school facility and in the district's central office.
