Use of Private Vehicles for District Business

The Board discourages the use of private vehicles for district business, including the transportation of students. District staff will use district-owned vehicles whenever possible and should schedule both activities and transportation far enough in advance to avoid any nonemergency use of private vehicles.

The superintendent will develop regulations for staff use of private vehicles which will safeguard the district, its employees and students in matters of safety, insurance and liability.

No staff member will use a private vehicle for district business, including the transportation of students, without written permission from the superintendent. Authorization to use a private vehicle must be obtained before actual use of the vehicle. Staff members who are authorized to use a personal vehicle on district business will be reimbursed in accordance with collective bargaining agreements.

No student will be allowed to perform district business with his or her own automobile, a staff member's automobile, or a district-owned vehicle, except as approved by the superintendent or designee, i.e., off campus courses.
