

Expanded Options Program

The district shall establish a process to identify and provide those students with information about the program. The district shall send information about the program to the last-known address of the family of the student.

Graduation and Course Credit

Participating in EOP will not adversely affect your child's ability to graduate because credit received from successfully completing an eligible post-secondary course may be applied towards high school graduation requirements. If, however, your child does not receive a passing grade in the eligible post-secondary course, your student may not receive credit towards high school graduation. Failure to successfully complete an eligible post-secondary course may affect the student's ability to remain in or re-enroll in EOP.

Selection

All eligible students may apply for EOP, but all eligible students who apply may not be accepted because of space limitations. Enrollment in EOP may be limited because of caps on total credit hours that will be awarded by the high school. Unless notified otherwise, the total number of credits awarded under EOP by each high school equals one-third of its enrollment in grades 9 through 12. (For example, if high school enrollment in grades 9-12 is 1,000 students, the high school may award no more than 330 credit hours for all students in EOP.) If qualified applications to EOP exceed space limitations, the district will give priority to eligible students in grade 12.

When selecting students, the high school will give priority to at-risk students. The definition of an at-risk student is a student who either qualifies for a free or reduced lunch program, or meets state or federal thresholds for poverty which entitles the student for services under certain provisions of the No Child Left Behind Act.

Enrollment Process

Prior to May 15 of each year, a student who is interested in participating in the Expanded Options Program shall notify the district of his/her intent to enroll in post-secondary courses during the following school year. A high school transfer student or returning dropout has 20 business days from the date of enrollment to indicate interest.

The district shall review with the student and the student's parent the student's current status toward meeting all state and district graduation requirements and the applicability of the proposed post-secondary course to the remaining graduation requirements.

A student who intends to participate in the Expanded Options Program shall develop an educational learning plan in cooperation with an advisory support team. An advisory support team may include the student, the student's parent and a teacher or a counselor. The educational learning plan may include:

1. The student's short-term and long-term learning goals and proposed activities; and
2. The relationship of the post-secondary courses proposed under the Expanded Options Program and the student's learning goals.

A student who enrolls in the Expanded Options Program may not enroll in post-secondary courses for more than the equivalent of two academic years. A student who first enrolls in the Expanded Options Program in grade 12 may not enroll in post-secondary courses for more than the equivalent of one academic year. If a student first enrolls in a post-secondary course in the middle of the school year, the time of participation shall be reduced proportionately. If a student is enrolled in a year-round program and begins each grade in the summer session, summer sessions are not counted against the time of participation.

Duplicate Courses

The district will establish a process to determine duplicate course designations. The district will notify an eligible student and the student's parent or guardian of any course the student wishes to take that the district determines is a duplicate course, within 20 business days after the student has submitted a list of intended courses.

Contested Decisions/Appeal

If the parent/student disagree with the district's determination that a course is a duplicate course, you may appeal first to the superintendent. The appeal must be in writing and contain at a minimum the following information: (1) name of student; (2) name of post-secondary course; (3) detailed description of post-secondary course; (4) name of duplicate course offered by high school; (5) detailed description of duplicate course offered by high school; and (6) reasons why you believe course is not a duplicate. The complainant

must initiate the appeal within 5 days of receiving notification that the post-secondary course is a duplicate. The superintendent will issue a written decision within 10 days.

If dissatisfied with the superintendent's decision, the complainant may appeal next to the district board. The appeal must be in writing. The complainant must initiate the appeal within 10 days of receiving the superintendent's determination that the post-secondary course is a duplicate. The board will issue a written decision within 30 days.

If dissatisfied with the board's decision, the complainant may appeal to the Superintendent of Public Instruction or designee after exhausting local procedures or after 45 days from filing a written complaint with the district, whichever occurs first. If the complainant appeal to the Superintendent of Public Instruction or designee, they must comply with all requirements under OAR 581-022-1940.

Expanded Options Program Annual Credit Hour Cap

The number of credit hours that may be awarded by a high school under the Expanded Options Program is limited to an amount equal to the number of students in grades 9 through 12 enrolled in the high school multiplied by a factor of 0.33. For example, the cap for a high school with 450 students in grades 9 through 12 would be 148.5 ($450 \times 0.33 = 148.5$). (The caps must be established separately for each high school.)

At the district's discretion, the district may choose to exceed both the individual high school level cap and the aggregate district level cap. If the district chooses not to exceed the cap it will establish a process for selecting eligible students for participation in the program. The process will give priority for participation to students who are "at risk." An "at-risk student" means (1) a student who qualifies for a free or reduced price lunch program; or (2) an at-risk student as defined by rules adopted by the State Board of Education if it has adopted rules to define an at-risk student. An "at-risk" student includes a student who meets state or federal thresholds for poverty as indicated by eligibility for services under any of the following provisions of the No Child Left Behind Act: (1) Title I - Improving Academic Achievement of the Disadvantaged, Part A - Improving Basic Programs Operated by Local Educational Agencies; (2) Title I, Part C - Education of Migratory Children; (3) Title I, Part D - Prevention and Intervention Programs for Children and Youth Who are Neglected, Delinquent, or At-Risk; (4) Title III - Language Instruction for Limited English Proficient and Immigrant Students; and (5) and Title X - Repeals, Redesignations, and Amendments to Other Statutes, Part C - Education of Homeless Children and Youth Program (amending subtitle B of title VII of the McKinney-Vento Homeless Educational Assistance Act).

Post-Secondary Institution Credit

Prior to beginning a post-secondary course, the district shall notify the student of the number and type of credits that the student will be granted upon successful completion of the course. If there is a dispute between the district and student regarding the number or type of credits that the district will or has granted to a student for a particular course, the student may appeal the district's decision using an appeals process adopted by the Board.

Credits granted to a student shall be counted toward high school graduation requirements and subject area requirements of the state and the district. Evidence of successful completion of each course and credits granted shall be included in the student's education record. A student shall provide the district with a copy

of the student's grade in each course taken for credit under the Expanded Options Program. The student's education record shall indicate that the credits were earned at a post-secondary institution.

Financial Agreement

The district shall negotiate in good faith a financial agreement with the eligible post-secondary institution for the payment of actual instructional costs associated with the student's enrollment, including tuition and fees and the costs of textbooks, equipment and materials.

A district may request a waiver from the Superintendent of Public Instruction if:

1. Compliance would adversely impact the finances of the district; or
2. The district offers dual credit technical preparation programs (i.e. two-plus-two programs, advanced placement or International Baccalaureate programs).

Student Reimbursement

Students are not eligible for any state student financial aid, but students may apply to the district for reimbursement for any textbooks, fees, equipment or materials purchased by the student that are required for a post-secondary course. All textbooks, fees, equipment and materials provided to a student and paid for by the district are the property of the district.

Transportation Services

The district may provide transportation services to eligible students who attend post-secondary institutions within the education service district boundaries of which the district is a component district.

Special Education Services

The district of a student participating in the Expanded Options Program shall be responsible for providing any required special education and related services to the student. "Related services" includes transportation and such developmental, corrective and other supportive services as are required to assist a student with a disability to benefit from special education and is consistent with Oregon administrative rules on special education. "Special education" means specifically designed instruction consistent with Oregon administrative rules to meet the unique needs of a student with a disability by adapting, as appropriate, the content, methodology, or delivery of instruction to address the unique needs of the student that result from the student's disability and to ensure access of the student to the general curriculum.

If a post-secondary institution intends to provide special education and related services to an Expanded Options Program participant, the institution shall enter into a written contract with the district of the student. The contract shall include the following at a minimum:

1. Allowance for the student to remain in the program during the pendency of any special education due process hearing unless the parents and district agree otherwise;

2. Immediate notification to the district if the institution suspects that a student participating in the program may have a disability and requires special education or related services;
3. Immediate notification to the district if the student engaged in conduct that may lead to suspension or expulsion; and
4. Immediate notification to the district of any complaint made by the parents of the student regarding the student's participation in the program at the institution.

District Alternative Programs

The Expanded Options Program does not affect any program, agreement or plan that existed on January 1, 2006 between the district and a post-secondary institution, which has been continued or renewed.

Any new program, agreement or plan that is developed after January 1, 2006 may be initiated at the discretion of the district and the post-secondary institution.
