

Providing Lease Space, Other Facilities and Services

The Board may provide space for the offices of other education and service providers including, but not limited to, employment training, and human services agencies or organizations.

Facilities and services may also be provided to component districts, or a combination of components through the ESD's Local Service Plan, or by other agreement.

Additionally, entrepreneurial programs, facilities, and services may be provided to noncomponent districts and other public and private entities as may be identified by the Superintendent and approved by the Board if such services are part of the Local Service Plan.

Such facilities and services shall be provided at an agreed upon cost.

Services may be provided to the Oregon Department of Education in the absence of reimbursable costs when, in the opinion of the Superintendent, such services are:

1. Necessary to comply with state standards;
2. Are of benefit to local districts and/or the ESD.

Whenever possible, such services should be on the basis of a written contract. Services provided shall be fully self-supporting. These services must not erode the ability of the ESD to provide services to component districts.

The Superintendent will develop administrative regulations as needed for the implementation of this policy, including application forms and fees as may be necessary.

END OF POLICY
