

Special Education - Evaluation Procedures¹

Consistent with its child find and parent consent requirements, the ESD responds promptly to requests initiated by a parent or public agency for an initial evaluation to determine if a child is a child with a disability.

A full and individual evaluation of a student's educational needs that meets the criteria established in the Oregon Administrative Rules will be conducted before determining eligibility and before the initial provision of special education and related services to a student with a disability. The ESD implements an ongoing system to locate, identify and evaluate all children birth to 21 residing within its jurisdiction who have disabilities and need early intervention, early childhood special education or special education services.

The ESD identifies all children with disabilities, regardless of the severity of their disabilities, including children who are:

1. Highly mobile, such as migrant and homeless children;
2. Wards of the state;
3. Indian preschool children living on reservations;
4. Suspected of having a disability even though they are advancing from grade to grade;
5. Home schooled;
6. Attending private (religious or secular) school located within the boundaries of the ESD;
7. Attending a district charter school;
8. Below the age of compulsory school attendance; or
9. Above the age of compulsory school attendance who have not graduated from high school with a regular high school diploma and have not completed the school year in which they reach their 21st birthday.

¹For programs and services provided to students for which the ESD is not considered the local educational agency (LEA), the ESD shall operate in accordance with local district policy.

The ESD is responsible for evaluating and determining eligibility for special education services for school age children placed in an ESD education program where the ESD is responsible for FAPE. Districts are responsible for evaluating children who may be eligible for Early Intervention/Early Childhood Special Education (EI/ECSE) services. The Willamette ESD serves as the designated referral and evaluation agency and is responsible for determining eligibility on behalf of the districts.

Before conducting any evaluation or re-evaluation, the ESD:

1. Plans the evaluation with a group that includes the parent(s);
2. Provides prior written notice to the parent(s) that describes any proposed evaluation procedures the agency proposes to conduct as a result of the evaluation planning process; and
3. Obtains informed written consent for evaluation.

The ESD conducts a comprehensive evaluation or re-evaluation before:

1. Determining that a child has a disability;
2. Determining that a child continues to have a disability;
3. Changing the child's eligibility;
4. Providing special education and related services;
5. Terminating the child's eligibility for special education, unless the termination is due to graduation from high school with a regular diploma or exceeding the age of eligibility for a free appropriate public education.

Upon completion of the evaluation, the ESD provides the parent or eligible child a copy of the evaluation report at no cost. The evaluation report describes and explains the results of the evaluation. Upon completion of the eligibility determination, the ESD provides the parent or eligible child documentation of eligibility determination at no cost.

The ESD ensures that assessments and other evaluation materials, including those tailored to assess specific areas of education need, used to assess a child:

1. Are selected and administered so as not to be racially or culturally discriminatory;
2. Are provided and administered in the child's native language or other mode of communication and form most likely to yield accurate information on what the child knows and can do academically, developmentally, and functionally unless it is clearly not feasible to do so;
3. Are used for purposes for which assessments or measures are valid and reliable;
4. Are administered by trained and knowledgeable personnel; and

5. Are administered in accordance with any instructions provided by the producer of such assessments.

Materials and procedures used to assess a child with limited English proficiency are selected and administered to ensure that they measure the extent to which the child has a disability and needs special education, rather than measuring the child's English language skills.

A student must meet the eligibility criteria established in the Oregon Administrative Rules.

The ESD conducts re-evaluations:

1. When the educational or related services needs, including improved academic achievement and functional performance of the children warrant a re-evaluation;
2. When the child's parents or teacher requests a re-evaluation; and
3. At least every three years, unless that parent and the ESD agree that a re-evaluation is unnecessary.

The ESD does not conduct re-evaluation more than once a year, unless the parent and ESD agree otherwise.

If a parent has previously revoked consent for special education and related services and subsequently requests special education and related services, the ESD will review all existing information/evaluations to inform potential eligibility for special education.
