Infection Control - HIV, AIDS, HBV

The ESD shall use standard precautions at all times for infection control. Each person is, therefore, treated as though an HIV, AIDS, HBV¹ or other infectious diseases exists.

The ESD shall develop an Exposure Control Plan that includes infection control procedures for staff and students.

Staff shall receive an annual in-service that includes correct procedures for cleaning up body fluid spills and for personal cleanup, appropriate disposal, immunization, and personal hygiene, as well as the location and a content review of first-aid and clean-up kits. Kits shall be readily available in ESD facilities and in each ESD vehicle.

In addition to an annual in-service, staff and students on a regular basis will receive infectious disease information including HIV, AIDS, and HBV information, as appropriate.

The ESD will cooperate with the Oregon Department of Education, the Oregon Health Division, and the local health department in delivering HIV, AIDS, HBV, and other infectious disease education.
