## Board Policy Development and Adoption

It is the policy of the Board that it be governed by a set of written policies. These policies are designed to give direction to both Board members and district employees, and shall be made available to district staff, parents, citizens and others as requested.

“Policies” shall be those general statements of principle or intent adopted by the Board which shall be used as guidelines for the Board, superintendent and staff in the management of the affairs of the district. They shall be known to and followed by all connected with district operations.

“Board Procedures” are detailed directions governing the operation of the schools.

The superintendent may formulate such administrative regulations appropriate for the implementation of policies adopted by the Board and necessary for the consistent operation of the district.

When approved by the superintendent, administrative regulations will be distributed and included in existing policy books.

The Board may review any administrative regulation and may revise it by majority vote if, in the Board’s judgment, such regulation is not consistent with adopted policies.

### Amendment and Suspension of Policies

The procedure for amending existing policy(ies) shall be identical to the procedure for consideration of new policies, unless an emergency exists.
